IA Systems & Intelligence

A Division of IA Aerial

UEI#: JSKCCS15147
CAGE Code: 7TMA7

Enabling validated operational execution in complex and controlled environments.

Defense & Government Operational Support Capability Statement

What We Do

IA Systems delivers independent third-party operational verification and intelligence capabilities for defense and government environments.
We validate field activity, infrastructure conditions, and operational outputs through real-time data collection, analysis, and audit-defensible reporting to support mission readiness and execution.

Why IA Systems

- **Independent third-party verification**
- **Audit-defensible reporting aligned with federal and mission requirements**
- **Real-time operational visibility**
- **Rapid deployment capability**
- **Engineering-grade LiDAR and geospatial analytics**

Proven performance supporting federal, infrastructure, and mission-critical operations.

CORPORATE INFORMATION

UEI: JSKCCS15147
CAGE: 7TMA7
DUNS: 079714543
Status: Veteran-Owned, DBE
Coverage: Nationwide Deployment

Email: ronald@iaphotos.com
Phone: +1 (850) 251-4181

Operational Advantage

- Rapid mobilization (24–48 hours)
- Field-ready UAV and sensor teams
- Real-time data delivery
- Secure and controlled-environment operations
- Alignment with federal and mission requirements

PROVEN OPERATIONAL EXPERIENCE

Disaster Response & Debris Monitoring
Client: U.S. Army Corps of Engineers
Value: $2.7M
Scope: Supported flood debris removal in North Carolina, providing monitoring and accountability documentation.

Military Infrastructure Assessment
Client: U.S. Air Force
Value: $725K
Scope: Supported mission readiness and infrastructure assessment operations.

Urban Infrastructure Mapping
Client: City of Panama City Beach, FL
Value: $300K
Scope: Delivered geospatial mapping and imagery to support for infrastructure development and environmental monitoring.

WEB

PROFILE

CORE CAPABILITIES

IA Systems delivers operational verification, geospatial intelligence, and deployment support for defense operations, infrastructure security, and mission-critical environments.

DEFENSE & GOVERNMENT SUPPORT

Trusted Systems. Mission-Ready Execution.

- ISR platform support
- Counter-UAS (CUAS) integration
- Security systems integration
- Mission-specific payload deployment

Outcome: Enhanced operational readiness, validated field execution, and trusted intelligence to support command-level decision-making.

EQUIPMENT & PLATFORM

LIDAR-enabled UAV platforms for high-accuracy terrain and structure modeling.
Thermal and multispectral sensors for inspection, monitoring, and analysis. High-resolution photogrammetry for large-area and urban environments.
Optical Gas Imaging (OGS) systems for aerial detection, visualization, and monitoring of gas emissions and leaks in industrial and infrastructure environments.
Bluelisted UAS - Skydio X10/2D, Freefly Inspire, and Wingtra
