IA Systems & Intelligence

A Division of IA Aerial

Supporting FEMA Public Assistance & USACE QASP Oversight

UEI#: JSKCCS15147
CAGE Code: 7TMA7

Disaster Response & Debris Monitoring Capability Statement

What We Do

IA Systems is designed for rapid deployment in post-disaster environments where speed, accuracy, and accountability are critical. Delivers third-party independent operational verification and audit-defensible intelligence. We confirm work performed, quantities reported, and operational activity through real-time data collection, analysis, and reporting.

Why IA Systems

- **Independent third-party verification**
- **Audit-defensible reporting (FEMA & USACE aligned)**
- **Real-time operational visibility**
- **Rapid deployment capability**
- **Engineering-grade LiDAR and geospatial analytics**

Proven performance in active disaster environments supporting federal recovery operations.

CORPORATE INFORMATION

UEI: JSKCCS15147
CAGE: 7TMA7
DUNS: 079714543
Status: Veteran-Owned, DBE
Coverage: Nationwide Deployment

Email: ronald@iaphotos.com
Phone: +1 (850) 251-4181

Operational Advantage

- Rapid mobilization (24–48 hours)
- Field-ready UAV teams
- Real-time data delivery
- FEMA / USACE aligned reporting

PROVEN OPERATIONAL EXPERIENCE

Disaster Response & Debris Monitoring
Client: U.S. Army Corps of Engineers
Value: $2.7M
Scope: Supported flood debris removal in North Carolina, providing monitoring and accountability documentation.

Military Infrastructure Assessment
Client: U.S. Air Force
Value: $725K
Scope: Conducted infrastructure inspections, environmental surveys, and readiness assessments.

Urban Infrastructure Mapping
Client: City of Panama City Beach, FL
Value: $300K
Scope: Delivered geospatial mapping and imagery to support for infrastructure development and environmental monitoring.

WEBSITE

COMPANY PROFILE

CORE CAPABILITIES

IA Systems delivers operational verification, geospatial intelligence, and deployment support for disaster response and debris monitoring operations.

DISASTER RESPONSE & RECOVERY

Rapid Deployment. Verified Outcomes.

- Rapid aerial damage assessment and situational awareness
- Debris field mapping and volumetric analysis
- Route clearance and access identification
- Temporary debris site monitoring
- FEMA Public Assistance documentation support
- Real-time aerial reconnaissance for operational teams

Outcome: Accelerated debris operations, reduced reporting risk, and audit-ready documentation for FEMA reimbursement.

EQUIPMENT & PLATFORM

LIDAR-enabled UAV platforms for high-accuracy terrain and structure modeling.
Thermal and multispectral sensors for inspection, monitoring, and analysis. High-resolution photogrammetry systems for large-area and urban environments.
Optical Gas Imaging (OGS) systems for aerial detection, visualization, and monitoring of gas emissions and leaks in industrial and infrastructure environments.
Bluelisted UAS - Skydio X10/2D, Freefly Inspire, and Wingtra

NAICS

541370 Surveying and Mapping Services
541922 Commercial Photography
541360 Geophysical Surveying and Mapping Services
541330 Engineering Services
541611 Administrative and General Management Consulting Services
541690 Other Scientific and Technical Consulting Svc
