IA Systems & Intelligence

A Division of IA Aerial

Continuous Monitoring. Engineering-Grade Intelligence.

UEI#: JSKCCS15147
CAGE Code: 7TMA7

Infrastructure & Environmental Intelligence Capability Statement

What We Do

IA Systems delivers independent third-party operational verification and geospatial intelligence for infrastructure and environmental systems. We validate asset conditions, site activity, and engineering data through real-time data collection, analysis, and audit-defensible reporting to support planning, maintenance, and operational oversight.

Why IA Systems

- **Independent third-party verification**
- **Audit-defensible reporting (aligned with federal and infrastructure standards)**
- **Real-time operational visibility**
- **Rapid deployment capability**
- **Engineering-grade LiDAR and geospatial analytics**

Proven performance across infrastructure, environmental, and engineering-focused projects.

CORPORATE INFORMATION

UEI: JSKCCS15147
CAGE: 7TMA7
DUNS: 079714543
Status: Veteran-Owned, DBE
Coverage: Nationwide Deployment

Email: ronald@iaphotos.com
Phone: +1 (850) 251-4181

OPERATIONAL ADVANTAGE

- Rapid mobilization (24–48 hours)
- Field-ready UAV teams
- Real-time data delivery
- FEMA / USACE aligned reporting

PROVEN OPERATIONAL EXPERIENCE

Disaster Response & Debris Monitoring
Client: U.S. Army Corps of Engineers
Value: $2.7M
Scope: Supported flood debris removal in North Carolina, providing monitoring and accountability documentation.

Military Infrastructure Assessment
Client: U.S. Air Force
Value: $725K
Scope: Conducted infrastructure inspections, environmental surveys, and readiness assessments.

Urban Infrastructure Mapping
Client: City of Panama City Beach, FL
Value: $300K
Scope: Delivered geospatial mapping and imagery to support for infrastructure development and environmental monitoring.

WEBSITE **COMPANY PROFILE**

CORE CAPABILITIES

IA Systems delivers operational verification, geospatial intelligence, and deployment support for infrastructure inspection, environmental monitoring, and asset management.

INFRASTRUCTURE & ENVIRONMENTAL INTELLIGENCE

Continuous Monitoring. Engineering-Grade Data.

- LiDAR mapping & modeling
- Photogrammetry & orthomosaics
- Thermal & multispectral imaging
- Construction & engineering support
- Urban & corridor mapping
- Understand, maintain, and manage assets

Outcome: Outcome: Improved asset visibility, data-driven decision-making, and reduced operational risk across infrastructure systems..

EQUIPMENT & PLATFORM

LIDAR-enabled UAV platforms for high-accuracy terrain and structure modeling.
Thermal and multispectral sensors for inspection, monitoring, and analysis. High-resolution photogrammetry systems for large-area and urban environments.
Optical Gas Imaging (OGS) systems for aerial detection, visualization, and monitoring of gas emissions and leaks in industrial and infrastructure environments.
Bluelisted UAS - Skydio X10/2D, Freefly Inspire, and Wingtra

NAICS
